DATASHEET - CS-1212/250

EL-Nummer

(Norway)

0002466144

Delivery program

Product range			Wall-mounting housing CS
Product function			Wall-mounting housing with mounting plate
Degree of Protection			IP66 IP23 (with ventilating plates)
Description			Foamed polyurethane sealing throughout. Impact resistance category IK09 to EN 62262. Sheet steel mounting plate Bottom plate with foamed gasket. Single door, door stop on the right, door opening angle 120° Door hinge pins with quick change technology. Standardized locking system with sash fastener. Powder coating RAL 7035 inside and outside
Material			Steel plate
Dimensions			
Width		mm	1200
Height		mm	1200
Depth		mm	250
Locks	Number		1 (3-point)
Hinges	Number		3
Door profile molding	Number		2
Flange plates	Width x Depth	mm	2 x 172 x 532
Max. F3A flanges	Number		4 (2x2)
Mounting plates			
Height		mm	1170
Width		mm	1150
Weight		kg	94.2
Information about equipment supplied			Lock, 3 mm double ward key Including M6 threaded welded studs for earth conductor connections in the door

		500 kg payload, when brackets fitted in all four enclosure corners (vertically or horizontally) and the weights are symmetrically distributed within the enclosure.
Description/standard features		
Construction		Canted and seam welded, including two M6 threaded bolts for earth conductor connections inside the enclosure.
Back plate		9 mm drilling dimensions for wall mounting
Side plates		Without apertures
Top plate		Without apertures
Bottom plate		Enclosed, foamed gasket, can be unscrewed for F3A- \ldots flanges or for assembly by user
Mounting plate, material		Sheet steel, hot-galvanized
Door, Engineering		Including M6 threaded welded studs for earth conductor connections in the door:
Information about equipment supplied		Lock, 3 mm double ward key Including M6 threaded welded studs for earth conductor connections in the door
		If electrical apparatus is to be installed in the door, a continuous, permanent protective ground contactor connection must be established with a protective ground cable. The threaded welded studs on the door and on the cabinet side wall must be used as connecting points for the ground leads.
Door hinges		On the right, can be converted by user
Type Door		Door hinges right can be converted by user

Design verification as per IEC/EN 61439

· · ·			
Technical data for design verification			
Heat dissipation, at an ambient temperature of 35°C, delta T: 20 degrees in top of the enclosure, calculated as per IEC 60890			
Individual enclosure for wall mounting	P _V	W	195
Starting enclosure for wall mounting	P _V	W	186
Middle enclosure for wall mounting	P _V	W	180
Heat dissipation, at an ambient temperature of 35°C, delta T: 35 degrees in top of the enclosure, calculated as per IEC 60890			
Individual enclosure for wall mounting	P _V	W	390
Starting enclosure for wall mounting	P _V	W	373
Middle enclosure for wall mounting	P _V	W	361
IEC/EN 61439 design verification			
10.2 Strength of materials and parts			
10.2.2 Corrosion resistance			Meets the product standard's requirements.
10.2.3.1 Verification of thermal stability of enclosures			Meets the product standard's requirements.
10.2.3.2 Verification of resistance of insulating materials to normal heat			Meets the product standard's requirements.
10.2.3.3 Verification of resistance of insulating materials to abnormal heat and fire due to internal electric effects			Meets the product standard's requirements.

10.2.4 Resistance to ultra-violet (UV) radiation	Meets the product standard's requirements.
10.2.5 Lifting	Does not apply to enclosures without lifting aids.
10.2.6 Mechanical impact	IK09
10.2.7 Inscriptions	Meets the product standard's requirements.
10.3 Degree of protection of ASSEMBLIES	IP66_x
10.4 Clearances and creepage distances	Is the panel builder's responsibility.
10.5 Protection against electric shock	$< 0.1 \Omega$; meets the product standard's requirements.
10.6 Incorporation of switching devices and components	Is the panel builder's responsibility.
10.7 Internal electrical circuits and connections	Is the panel builder's responsibility.
10.8 Connections for external conductors	Is the panel builder's responsibility.
10.9 Insulation properties	
10.9.2 Power-frequency electric strength	U _i = 1000 V AC
10.9.3 Impulse withstand voltage	Does not apply to basic enclosures as defined in EN 62208.
10.9.4 Testing of enclosures made of insulating material	Does not apply to metal enclosures.
10.10 Temperature rise	The panel builder is responsible for the temperature rise calculation. Eaton will provide heat dissipation data for the devices.
10.11 Short-circuit rating	Is the panel builder's responsibility.
10.12 Electromagnetic compatibility	Is the panel builder's responsibility.
10.13 Mechanical function	Meets the product standard's requirements.

Degree of protection (IP)		IP66
Degree of protection (NEMA)		12

Approvals

, ppi o taio	
Product Standards	UL 508A; CSA-C22.2 No.14; IEC/EN 60529; CE marking
UL File No.	E336299
UL Category Control No.	NITW

CSA File No.	-
CSA Class No.	-
North America Certification	Request filed for CSA
Conditions of Acceptability	Series CS may be provided with metal sub-panel. No back mounted components are allowed between sub-panel and the back sheet metal enclosure
Specially designed for North America	No
Suitable for	Industrial Control Panels
Degree of Protection	IEC: IP66, indoor and outdoor; UL/CSA Types 1, 12, indoor only.
