## **DATASHEET - BZMC2-A125**

Circuit-breaker, 3 p, 125A

BZMC2-A125 121800 Alternate Catalog BZMC2-A125

Similar to illustration

## Design verification as per IEC/EN 61439

Part no.

No.

Catalog No.

boorgin vormourion do por 120/211 or 100			
Technical data for design verification			
Rated operational current for specified heat dissipation	I <sub>n</sub>	А	125
Equipment heat dissipation, current-dependent	P <sub>vid</sub>	W	37.5
IEC/EN 61439 design verification			
10.2 Strength of materials and parts			
10.2.2 Corrosion resistance			Meets the product standard's requirements.
10.2.3.1 Verification of thermal stability of enclosures			Meets the product standard's requirements.
10.2.3.2 Verification of resistance of insulating materials to normal heat			Meets the product standard's requirements.
10.2.3.3 Verification of resistance of insulating materials to abnormal heat and fire due to internal electric effects			Meets the product standard's requirements.
10.2.4 Resistance to ultra-violet (UV) radiation			Meets the product standard's requirements.
10.2.5 Lifting			Does not apply, since the entire switchgear needs to be evaluated.
10.2.6 Mechanical impact			Does not apply, since the entire switchgear needs to be evaluated.
10.2.7 Inscriptions			Meets the product standard's requirements.
10.3 Degree of protection of ASSEMBLIES			Does not apply, since the entire switchgear needs to be evaluated.
10.4 Clearances and creepage distances			Meets the product standard's requirements.
10.5 Protection against electric shock			Does not apply, since the entire switchgear needs to be evaluated.
10.6 Incorporation of switching devices and components			Does not apply, since the entire switchgear needs to be evaluated.
10.7 Internal electrical circuits and connections			Is the panel builder's responsibility.
10.8 Connections for external conductors			Is the panel builder's responsibility.
10.9 Insulation properties			
10.9.2 Power-frequency electric strength			Is the panel builder's responsibility.
10.9.3 Impulse withstand voltage			Is the panel builder's responsibility.
10.9.4 Testing of enclosures made of insulating material			Is the panel builder's responsibility.
10.10 Temperature rise			The panel builder is responsible for the temperature rise calculation. Eaton will provide heat dissipation data for the devices.
10.11 Short-circuit rating			Is the panel builder's responsibility. The specifications for the switchgear must b observed.
10.12 Electromagnetic compatibility			Is the panel builder's responsibility. The specifications for the switchgear must b observed.
10.13 Mechanical function			The device meets the requirements, provided the information in the instruction leaflet (IL) is observed.

## **Technical data ETIM 7.0**

Low-voltage industrial components (EG000017) / Power circuit-breaker for trafo/generator/installation protection (EC000228)

Electric engineering, automation, process control engineering / Low-voltage switch technology / Circuit breaker (LV < 1 kV) / Circuit breaker for power transformer, generator and system protection (ecl@ss10.0.1-27-37-04-09 [AJZ716013])

Adjustment range undelayed short-circuit release A 800 - 1200   Integrated earth fault protection No   Type of electrical connection of main circuit Screw connection   Device construction Built-in device fixed built-in technique	Overload release current setting	А	0 - 0
Integrated earth fault protection No   Type of electrical connection of main circuit Screw connection   Device construction Image: Screw connection   Built-in device fixed built-in technique	Adjustment range short-term delayed short-circuit release	А	0 - 0
Type of electrical connection of main circuit Screw connection   Device construction Built-in device fixed built-in technique	Adjustment range undelayed short-circuit release	А	800 - 1200
Device construction Built-in device fixed built-in technique	Integrated earth fault protection		No
	Type of electrical connection of main circuit		Screw connection
Suitable for DIN rail (top hat rail) mounting No	Device construction		Built-in device fixed built-in technique
	Suitable for DIN rail (top hat rail) mounting		No

DIN rail (top hat rail) mounting optional	Yes
Number of auxiliary contacts as normally closed contact	0
Number of auxiliary contacts as normally open contact	0
Number of auxiliary contacts as change-over contact	0
With switched-off indicator	No
With under voltage release	No
Number of poles	3
Position of connection for main current circuit	Front side
Type of control element	Rocker lever
Complete device with protection unit	Yes
Motor drive integrated	No
Motor drive optional	No
Degree of protection (IP)	IP20
